

INFORMATION GATHERING TOOL

STEP1:

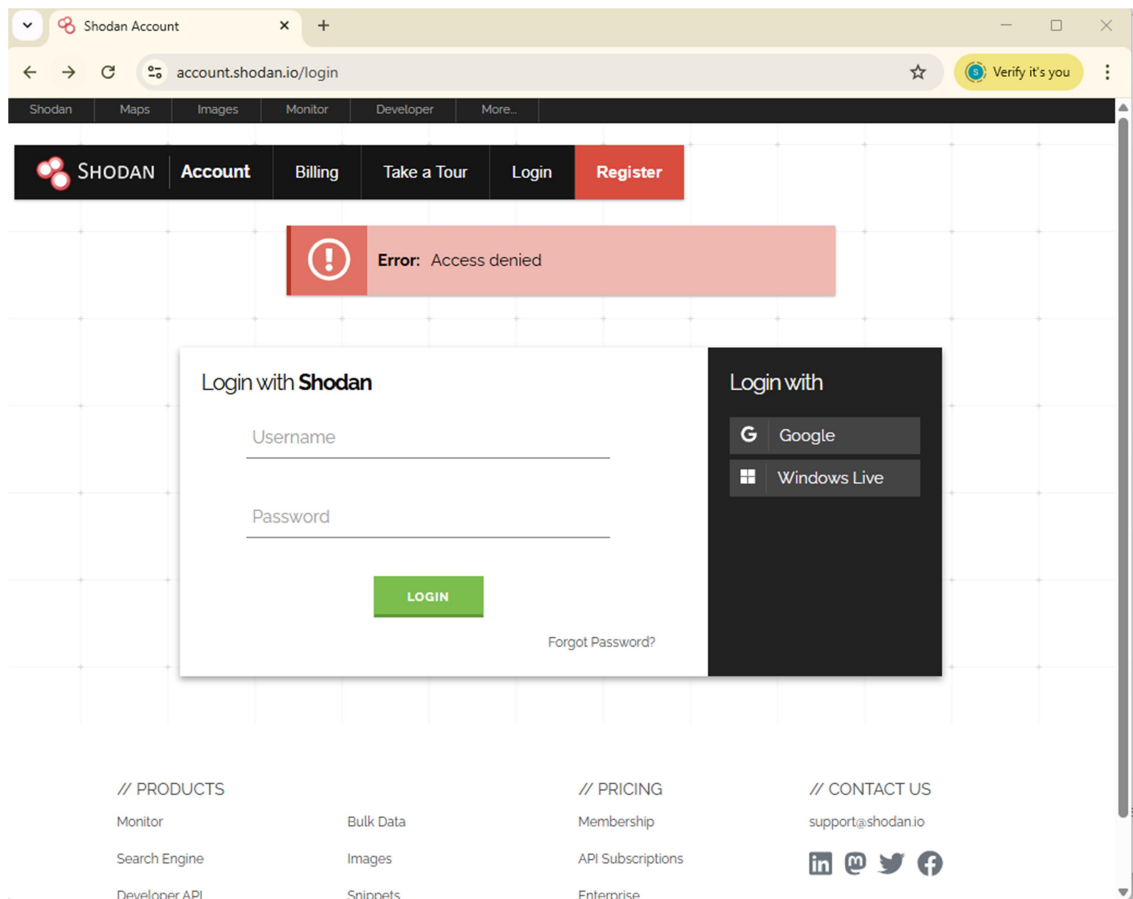

Type the command whois

```
kali@kali: ~  
File Actions Edit View Help  
kali@kali: ~ x kali@kali: ~ x  
(kali@kali)-[~]  
$ whois instagram.com  
Domain Name: INSTAGRAM.COM  
Registry Domain ID: 121748357_DOMAIN_COM-VRSN  
Registrar WHOIS Server: whois.registrarsafe.com  
Registrar URL: http://www.registrarsafe.com  
Updated Date: 2024-06-26T19:15:25Z  
Creation Date: 2004-06-04T13:37:18Z  
Registry Expiry Date: 2033-06-04T13:37:18Z  
Registrar: RegistrarSafe, LLC  
Registrar IANA ID: 3237  
Registrar Abuse Contact Email: abusecomplaints@registrarsafe.com  
Registrar Abuse Contact Phone: +1-650-308-7004  
Domain Status: clientDeleteProhibited https://icann.org/epp#clientDeleteProhibited  
Domain Status: clientTransferProhibited https://icann.org/epp#clientTransferProhibited  
Domain Status: clientUpdateProhibited https://icann.org/epp#clientUpdateProhibited

```

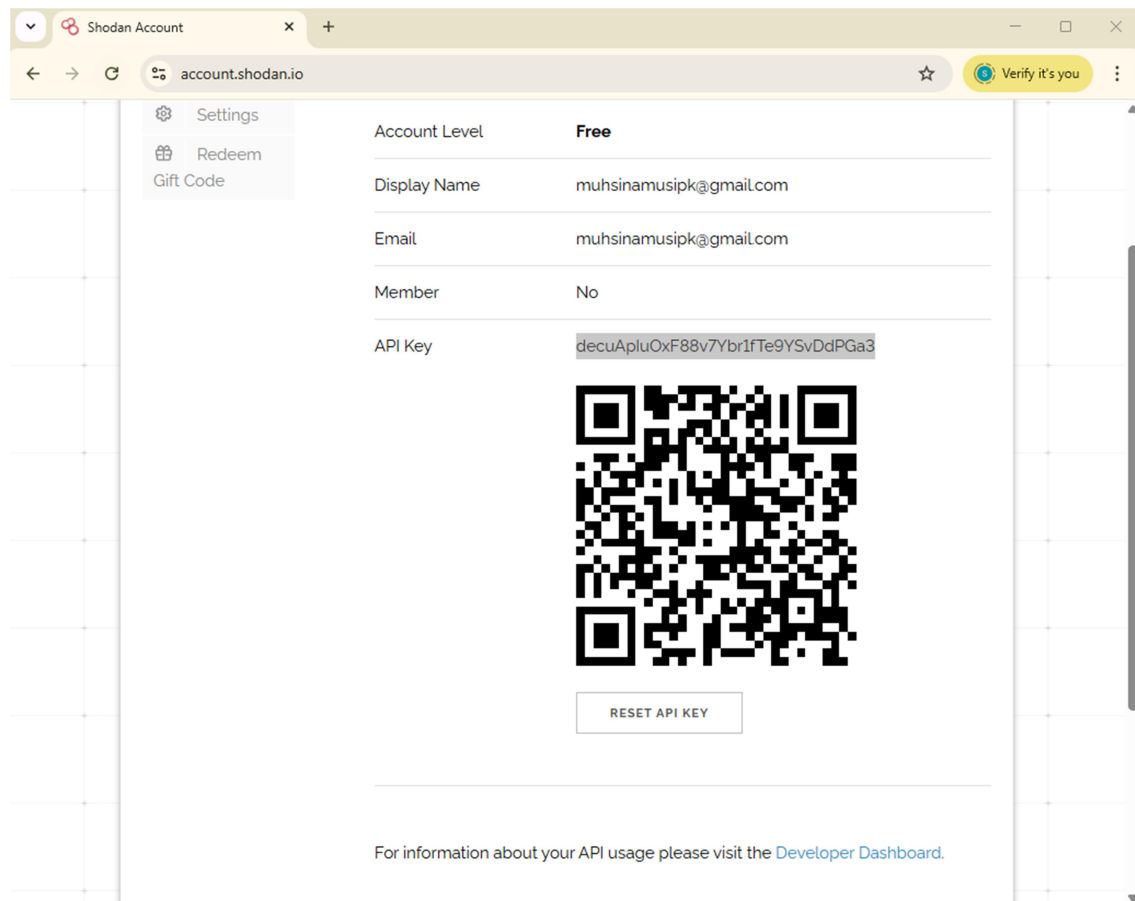

STEP2:

Search the Shadon account and register with google

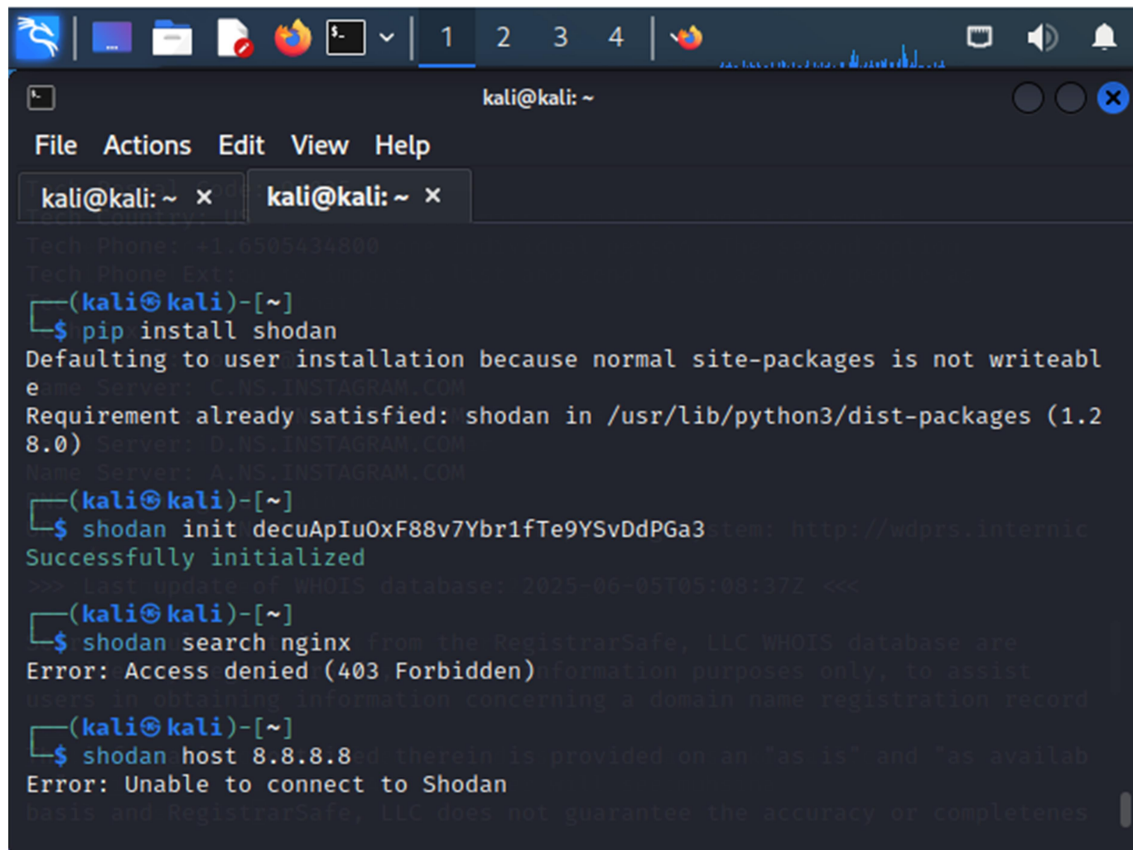

STEP3:

Copy the API key

STEP4:

Type the command `pip install shadon` and `shadon init "API"`.

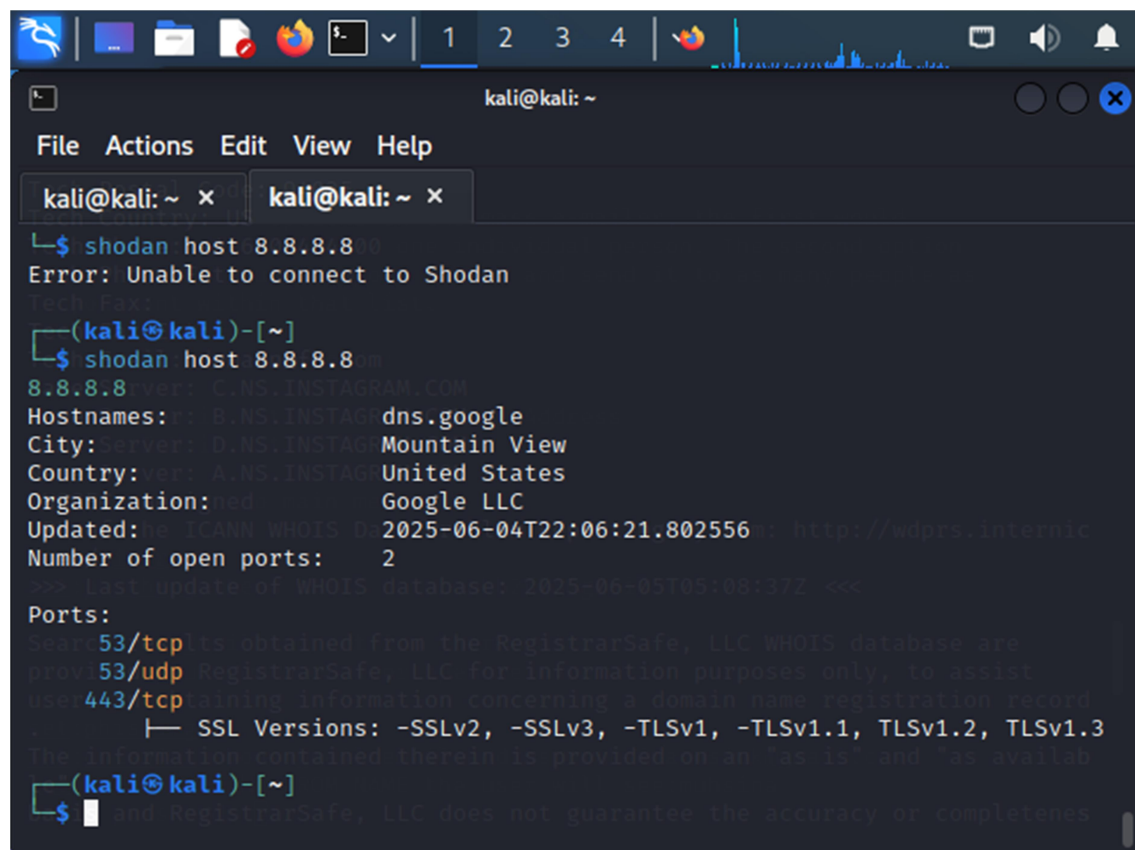

The image shows a terminal window on a Kali Linux system. The window has a title bar with the text 'kali@kali: ~' and standard window controls. Below the title bar is a menu bar with 'File', 'Actions', 'Edit', 'View', and 'Help'. There are two tabs open, both labeled 'kali@kali: ~'. The terminal content shows the following sequence of commands and outputs:

```
Tech Phone: +1.6505434800
Tech Phone Ext:
(kali@kali)-[~]
$ pip install shodan
Defaulting to user installation because normal site-packages is not writeable
Requirement already satisfied: shodan in /usr/lib/python3/dist-packages (1.2.8.0)
Name Server: C.NS.INSTAGRAM.COM
Name Server: D.NS.INSTAGRAM.COM
Name Server: A.NS.INSTAGRAM.COM
(kali@kali)-[~]
$ shodan init decuApIu0xF88v7Ybr1fTe9YSvDdPGa3 item: http://wdprs.internic
Successfully initialized
>>> Last update of WHOIS database: 2025-06-05T05:08:37Z <<<
(kali@kali)-[~]
$ shodan search nginx
Error: Access denied (403 Forbidden)
(kali@kali)-[~]
$ shodan host 8.8.8.8
Error: Unable to connect to Shodan
```

The output for the search command includes a message from RegistrarSafe, LLC: 'From the RegistrarSafe, LLC WHOIS database are information purposes only, to assist users in obtaining information concerning a domain name registration record'. The output for the host command includes a message: 'ed therein is provided on an "as is" and "as availab'.

STEP5:

STEP 3:

signup with your details

The screenshot shows a web browser window with the URL `login.maltego.com/registration?flow=39aefad1-101e-4c9c-ba67-ef26f2fa7dfb`. The page has a dark theme. At the top, there is a cookie consent banner. Below it, the heading "Create Maltego ID" is centered. The registration form contains three input fields: "E-Mail *" (with a tooltip "Please ensure that you provide a valid email address, such as your business email."), "First name *" (with placeholder "e.g. John"), and "Last name *" (with placeholder "e.g. Smith"). A yellow "CONTINUE →" button is positioned to the right of the form. Below the button, a paragraph states: "By clicking 'Continue' you agree to allow us to process the data you entered and to contact you for the purpose selected in the form. For more information, please refer to our [Terms & Conditions](#) & [Data Privacy Policy](#)." At the bottom of the form, there is a link: "ALREADY HAVE A MALTEGO ID? [LOGIN](#)".
